# Gorgeous TULIPS — Easy to Grow

You plant more than color when you plant TULIPS. The radiant loveliness of the many hued blooms furnish splashes of color that lifts your garden — turning the drabness of fall and winter into the sparkling freshness of spring.

Because the flower bud is in the bulb when you buy the top quality bulbs we furnish, our tulips are easy to grow and bloom.

**SELECTED, JUMBO TOP-SIZE BULBS — 4½ INCHES IN CIRCUMFERENCE AND UP**

The Tulip, Daffodil and Hyacinth, Crocus, Scillas, etc., offered in this folder are not just top-size but selected Jumbo top size bulbs.

Our top quality bulbs are carefully selected for us from the fields of Holland. Bulb experts carefully watch each operation to see that only the best of the crop and only top grade bulbs are shipped to us. Thus when you buy our bulbs — you get the cream of the crop — **QUALITY**.

Warning — never use manures with bulbs as they cause the bulbs to rot. Bone meal or a balanced commercial fertilizer with peat moss is best for bulbs. All bulbs need good drainage.

## GIANT PEONY-FLOWERED TULIP

The immense, peony-like blooms on strong erect stems have attracted attention to this colorful group of tulips wherever grown. They are known for their long-lasting qualities and are ideal for cutting or display. In our opinion the four varieties we list are tops.

## *Make The Most of Nature*

For best results with bulbs the soil must have good drainage so that strong root systems are developed. Heavy soils should be loosened up with peat moss or sand. Protect from winter damage by covering with a mulch after the first frost and uncover in early Spring. Water planting in early Spring for lack of moisture often stunts growth.

### **IMPORTED PAPER WHITE NARCISSUS For Indoor Planting**

Do not confuse these superior size bulbs with the smaller domestic bulbs often offered. These 14 to 15 cm. bulbs produce larger and more trusses of white, sweet scented blooms.

**3 for 50c    6 for 95c  
12 for \$1.80**

# DAFFODILS ~ NARCISSUS

In early spring — the flower of the poets braves the icy fingers of late winter to bring to us the stimulation of their warm prancing colors — and leads us into the new season with renewed enthusiasm and interest.

Plant them where they can be left alone to increase from year to year.

### **25 DAFFODILS FOR NATURALIZING \$1.95**

**50 Bulbs for \$3.75    100 Bulbs for \$6.85**

The unexpected color note of a seemingly accidental — yet planned — planting heightens immeasurably your garden interest. Daffodils are by nature informal flowers and most effective for that unexpected color note. Scatter them by handfuls and plant where they fall, among shrubbery and under trees.

Our naturalizing mixture is an exceptional offer containing all kinds of Daffodils — all are beauties, hardy and of the highest quality.
